With a change in government earlier this summer and a new Central West LHIN strategic plan in development, the future of health care - provincially and locally - is now. Headlined by Helen Angus, Deputy Minister of Health and Long-Term Care, this Central West LHIN Governance and Leadership Forum will provide valuable insight into emerging provincial and local health care priorities. Prepare to share your thoughts and questions on health system priorities, and to provide feedback on the direction of our provincial and local health care systems. Let's advance the conversation on how we, as a network of health system partners, can build a more accessible and integrated local health care system by planning for tomorrow…. today!
